VISION
MISSION

VISION

BREXIS envisions empowering governments, large enterprises and various industries in their digital transformation journey.

We aim to achieve this by delivering regional top-tier networking infrastructure products and services that offer the highest return on investment (ROI) and exceptional quality to our clients.

MISSION

We aim to fulfil our vision and translate it to the market ensuring we provide our clients with the highest ROI over their data and power infrastructure.

We have gained our customers' trust due to our relentless efforts to ensure providing best fitting data infrastructure solutions for a reasonable price

About Legrand
 Legrand is a multi-brand company that has been supplying for over 60 years all the blended electric solutions for the management of building functions such as lighting, heating, energy, networks and access control.

Your key to staying connected
 Dependable, scalable network connectivity and robust, reliable electrical infrastructure are now mission-critical for modern enterprises. Good thing Panduit's innovative infrastructure solutions enable the future-forward connectivity that global enterprises need to make more meaningful connections – and thrive.

Founded in 1970 on the revolutionary innovation of using technopolymer in electrical engineering, today Gewiss is the most important company in the electrotechnical sector with Italian capital.

The logo for Estap, featuring the word "Estep" in a bold, black, sans-serif font with a registered trademark symbol, set against a solid orange rectangular background.

Estep owns and operates state-of-the-art computer-assisted machinery and equipment and this cutting-edge technology is incorporated at every stage of production from workstation to assembly line.

Estep uses highly skilled manpower, high technological CNC machines, (punching, laser & bending etc.)

The logo for Fluke Networks, with "FLUKE" in a white, bold, sans-serif font and "networks." in a smaller, lowercase, white, sans-serif font, both on a dark blue rectangular background.

The people of Fluke work together across many industries and disciplines to create solutions not just for today, but for tomorrow. Learn more about us - our companies, our history, careers with Fluke, and more - including how to contact us and directions to our offices in Everett, Washington, USA.

The logo for Lantronix, with "LANTRONIX" in a grey, sans-serif font and a red "X" at the end, set against a white background.

Lantronix Inc (Lantronix) provides industrial and enterprise Internet of Things (IoT) solutions. The company offers products and solutions, including device management oob, network switches, telematic gateways, IoT gateways, media converters, serial-to-ethernet device servers, compute som & dev kits.

Innovative strength has been woven into the Rittal DNA since its foundation. In 1961, Rudolf Loh Elektrogerätebau was founded in Rittershausen by the entrepreneur Rudolf Loh, with one simple guiding principle: “Enclosures off the shelf, immediately.” In its founding year it launched the world’s first standard enclosure on the market. In 1969, the company was renamed Rittal, in honour of its roots in Rittershausen in Dietzhöhlzthal. Within just a few years, Rittal enclosures had become established as a global standard, and have remained so to this day.

It manufactures 19” rack cabinets, cabinet accessories, Telecom field cabinets (indoor/outdoor), server and datacenter cabinets, outdoor panels, special project cabinets and fiber optic boxes. Offering products at high quality standards thanks to its expert staff and state-of-the-art machinery, Mirsan Rack works with a focus on customer satisfaction with the fast delivery and after-sales support it provides for its products. Thanks to its innovative and constantly developing structure, it has all the cabinet and accessory infrastructure required by today’s technology.

Osilan Ltd is one of the leading UK manufacturers of fibre optic and networking products and accessories.
Driven by a team of highly skilled experts, Osilan offers premium quality fibre optic and networking products for the transmission of signals for data, sound and video applications across the Network Industry.
